ELSEVIER

DIABETES: TODAY'S RESEARCH TOMORROW'S THERAPIES

JANUARY 22–25, 2017
HYATT REGENCY MIAMI, USA

ABSTRACT SUBMISSION DEADLINE
November 7 2016

EARLY REGISTRATION DEADLINE
November 7 2016

The **50th Miami Winter Symposium** will be a comprehensive presentation of the most recent research on both types of diabetes, based on which prevention and advanced cures are close to implementation.

Sessions cover diabetes type 1 immunology; beta cell biology; genetics of type 1 and 2 diabetes; insulin signaling in type 2 diabetes; fat cells and diabetes; diabetes complications and cures. Therefore this symposium will be of interest to anyone wanting to understand the molecular bases of one of the most prevalent disease of humans; those curious to perceive how research can be translated into therapies; those, associated with pharmaceutical companies ready to transfer science into applications and those who want to teach beyond textbook information.

For all these attendees, a feast has been prepared with an incredible line-up of the world leaders in the field of diabetes.

SPEAKERS

Domenico Accili, *Columbia University Medical Center, USA*
David Altshuler, *Vertex Pharmaceuticals, USA*
Mark A. Atkinson, *University of Florida Diabetes Institute, USA*
Christophe Benoist, *Harvard Medical School, USA*
